NSW Rural Doctors Network (RDN) and the Rural Doctors' Association of NSW (RDA NSW) invite you to attend the 2022 Refresher Conference.

We are thrilled to advise that this year's conference will be face-to-face at Rydges Port Macquarie (25-27 March) and online (26-27 March).

This is the first time the event has been face-to-face since 2019, so there's going to be a fantastic atmosphere. This year's conference will cover a diverse range of topics, from paediatrics to oncology and obstetrics, through a rural lens. It will also include procedural workshops and our popular grand rounds sessions. It will be accredited with ACRRM and RACGP (Category 1). The conference also includes a range of social activities for you and the family including our Gala Dinner and Partner and Children's Program.
