You are invited to attend the 2023 Rural GPs Refresher Conference which will be held at Sails Port Macquarie from 24-26 March. The conference includes a rural-focused education program, a range of social events and our much-loved Partner and Children's Program.

The conference will be accredited with ACRRM and RACGP and includes an optional pre-conference Advanced Life Support course. You can also apply to have the cost of your registration, travel and accommodation reimbursed through the Health Workforce Scholarship Program (HWSP).

The Rural GPs Refresher Conference is brought to you by NSW Rural Doctors Network and the Rural Doctors Association of NSW. It offers education and social events in a relaxed, family-friendly atmosphere. We look forward to seeing you there.
