

A New Take on the Fundamentals of Asthma Control

WHEN Wednesday, October 27th 2021
7:00 PM – 8:00 PM

WHERE Online

COST Free

This program will be presented by Dr Anthony Frankel MBBS FCP(SA) FRACP (Respiratory and Sleep Medicine Physician). The learning objectives for this program are:

1. Clinical benefits of regular maintenance therapy versus intermittent treatment
2. Comparing efficacy and safety of commonly used ICS
3. Importance of adherence and device technique in asthma
4. Importance of discussing sub-optimal asthma control with your patients
