This inaugural event is a deliverable of the Paediatric Palliative Care National Action Plan Project and proudly hosted by Palliative Care Australia (PCA) and Paediatric Palliative Care Australia and New Zealand (PaPCANZ).

The Paediatric Palliative Care Project represents a unique opportunity to build the capacity of the Australian health care system to respond to the specialist needs of infants, children and young people with life-limiting conditions. The project brings together two peak bodies with the capability and content knowledge to deliver outcomes that will be crucial to enhancing palliative care for infants, children and young people. The conference aims to present a comprehensive program to share knowledge, skills and experiences, specifically for paediatric palliative care across Australia and New Zealand.
