Value for Organisations Building a practical skillset for foot assessment that enables a healthcare practitioner to be competent and confident in chronic conditions of the foot basic care. Learning Outcomes • Safely perform a basic foot care assessment • Determine foot care requirements • Prepare and use basic equipment and materials • Document foot, skin and nail care according to organisational requirements • Make appropriate referrals in a timely manner

*Students must complete the Foundations of Chronic Disease online module to book into this course. The course is supported by funding from the Australian Government Department of Health under the Chronic Disease Support Project. For further information, please visit the website or contact us.
