

Chronic kidney disease: a multidisciplinary team approach to reducing risk by individualising medicine management

WHEN Wednesday, October 5th 2022
7:00 PM – 8:30 PM

WHERE Online

COST Free

Hosted by NPS MedicineWise in collaboration with Kidney Health Australia and the National Aboriginal Community Controlled Health Organisation (NACCHO), this webinar for health professionals brings together a GP, pharmacist and nurse practitioner along with a person living with CKD. The panel discussion will focus on a person-centred multidisciplinary team approach to care to slow the progression of CKD and reduce the risk of cardiovascular disease. RACGP and ACRRM accreditation for 2 points pending approval.
