Join us with nephrologist Dr Richard Phoon for a case study that highlights the disproportionate representation of Aboriginal and Torres Strait Islander peoples with chronic kidney disease and kidney failure. The case study highlights the assessment criteria and diagnosis pathways followed by the appropriate management and referral requirements for First Nations peoples. RACGP Accredited CPDA Activity # 337242 (2 CPDA Points). Enquiries: [primary.care@kidney.org.au](mailto:primary.care@kidney.org.au)
