

Complex Catchups for Immunisation

WHEN Saturday, June 8th 2024
8:30 AM - 11:30 AM

WHERE Online

COST Full access to the three hour virtual workshop

An interactive virtual workshop for an experienced Immuniser in Australia, validating and expanding your clinical experiences are essential for your ongoing continued learning, and sharing these with other practitioners in a small classroom setting. Review catch-up principles and scenarios, and advance your learning by asking the questions you need from your clinical setting in a supportive environment. Discussing larger more complex catchup scenarios that may involve families and routine catchup schedules but with added complexity, such as country of origin.

Learning Outcomes

By the end of this virtual workshop, you will have refreshed your knowledge on how to work through a more complex catch-up process and what needs to be considered. You will practice working through one or more scenario's using the Australian Immunisation Handbook Catch-Up Tables, and be provided with answers for questions you might have.
