

Course in Ear Wax Removal (Microsuction) 11031NAT

WHEN Wednesday, September 25th 2024
9:00 AM - 4:00 PM

WHERE Australia

COST All inclusive

Microsuction is a strategic treatment option for ear health, whether it is a foreign body or wax removal that is required. This course requires a strong understanding of the anatomy and physiology of the ear. Build the knowledge of when to use microsuction, as a technique, with practice and assessments using mannequins to enhance capability, and strengthen patient care.

Learning Outcomes

- Assess and determine factors that affect ear and hearing health in relation to microsuction
- Assess the client's physical and pathophysiological auditory status and seek advice where appropriate
- Perform ear canal microsuctioning procedures when deemed appropriate and safe.
