

Course in Ear Wax Removal (Microsuction) 11031NAT

WHEN Tuesday, April 30th 2024
9:00 AM - 4:00 PM

WHERE Australia

COST \$500.

Microsuction is a strategic treatment option for ear health, whether it is a foreign body or wax removal that is required. This course requires a strong understanding of the anatomy and physiology of the ear. Build the knowledge of when to use microsuction, as a technique, with practice and assessments using mannequins to enhance capability, and strengthen patient care.

Value for Organisations

Microsuction is a strategic treatment option for ear health, whether it is a foreign body or wax removal that is required. This course requires a strong understanding of the anatomy and physiology of the ear. Build the knowledge of when to use microsuction, as a technique, with practice and assessments using mannequins to enhance capability, and strengthen patient care.

Learning Outcomes

- Assess and determine factors that affect ear and hearing health in relation to microsuction
- Assess the client's physical and pathophysiological auditory status and seek advice where appropriate
- Perform ear canal microsuctioning procedures when deemed appropriate and safe.

As an RACGP accredited provider, our Course in Ear Wax Removal (Microsuction) is the first of our courses to be RACGP accredited activity. We are accredited in:

- Reviewing Performance - 2 Hours
- Educational Activities - 2.5 Hours
