Hunter New England Health (HNE) and the Primary Health Network (PHN) have partnered to deliver a series of educational webinars to help inform people about the facts on COVID-19, the vaccines and the local response to support Aboriginal communities. Each webinar will have a panel of local experts to talk about topics important to the community. It's an opportunity to ask those burning questions to help keep you, your family and your community safe.

This webinar will discuss the following:

COVID-19 Update | HNE Aboriginal situation update | Cultural Support and Governance | Epidemiology update | Vaccination efficacy & safety | Questions & Answers session
