With the extension of the lockdown affecting Greater Sydney, the spread of COVID-19 infections across the area and interstate, and ongoing COVID-19 vaccination program rollout, we would like to invite you to attend a brief update via webinar to be held on Friday 6th August. This update is for all general practice and primary care providers.

The session will provide updated information on the following:

- Epidemiology of COVID-19 Delta strain
- The current situation with COVID-19 delta variant in the Central Coast region
- Vaccine Rollout in the Hunter, New England & Central Coast Regions
