This 3-hour online workshop will help managers and team leaders to build their confidence and capability to support staff from culturally and linguistically diverse backgrounds. Through interactive and thought-provoking activities participants will hone their skills in communicating cross culturally to minimise misunderstanding and identify strategies to address common challenges that culturally diverse staff experience when working in aged care services, disability care, and veteran care services.

Note: this workshop is also available at the same time on Thursday 20 June and Tuesday 25 June.
