

Dementia Prevention in Middle- Aged Adults – Introducing new clinical trial! (Mastermind)

WHEN Tuesday, September 28th 2021
1:00 PM – 2:00 PM

WHERE Online

COST Free

In this session we will provide an overview of the current burden of dementia in Australia, potentially modifiable risk factors for dementia and the role of primary healthcare in reducing dementia risk.

We will also introduce a new clinical trial that is currently recruiting primary care clinics, that is investigating two interventions for assessing dementia risk and reducing dementia risk-factors in middle-aged adults.
