This webinar will discuss how to improve diabetes care and business in general practice. A General Practitioner and Credentialed Diabetes Educator will outline and share their multidisciplinary approach to optimise care, improve the lives of those living with diabetes and remuneration.

Learning Objectives:

- Describe the role of a Credentialed Diabetes Educator working in a general practice
- Identify how a Credentialed Diabetes Educator can help with the management and care of people living with diabetes
- Identify how interdisciplinary collaboration can improve diabetes management and remuneration.

We ask for any pre questions to please be sent to
