

# Digital Health Foundations Series 1 - Healthcare Identifiers and the HI service

**WHEN** Friday, July 7th 2023  
11:30 AM - 12:00 PM

**WHERE** Online

**COST** Free

The meaningful use of digital health in Australia is underpinned by healthcare organisations connecting to the Healthcare Identifiers service. This four-part webinar series will provide managers of medical practices, community pharmacies and other healthcare organisations with an understanding of the foundations of digital health and how to put in place the pre-requisites required to connect to digital health services (such as electronic prescriptions, My Health Record and secure messaging). This session, 'Healthcare Identifiers and the HI service', is the first in the series and will cover the basics of the HI service and an overview of the steps required for an organisation to connect to digital health tools.
