The Essentials: Training Clinicians in Eating Disorders' online program addresses the nature, identification, assessment and treatment of people with eating disorders.

Over 17 hours, you will learn:

– The function of an eating disorder

– Assessment and preparation for treatment

– Evidence based treatment approaches

– Management across an inpatient and outpatient settings

Funded by the Australian Government Department of Health, 'The Essentials' is the only online course that meets the National Eating Disorder Collaboration's core competency framework for clinician training. Use code 'InsideOutEssentials' at the checkout to access your free course. 3 Months Access from Registration
