Would you like to know more about allergies in babies under 6 months? The National Allergy Council and Connecting the Dots – A National Nutrition Service are pleased to bring you a webinar featuring Dr Preeti Joshi, a paediatric clinical immunology/allergy specialist and Dr Merryn Netting, an advanced paediatric allergy dietitian.

The webinar will cover:

- When is it allergy – differentiating between allergy and other conditions
- Signs of an allergic reaction in babies
- Can babies ‘grow out’ of their allergies?
- Maternal diet when breastfeeding
- What infant formula to use if needed

- When and how to introduce common allergy causing foods, especially egg and peanut
- When should the child see a specialist?
