Join us for a FREE interactive, educational evening at the University of Newcastle's Global Centre for Research and Training in Radiation Oncology exploring:

- Radiation Therapy and its advancements.
- A cancer patients' pathway through CT simulation, planning and treatment.
- Referral pathways – how and when to contact your local Radiation Oncologist.
- Oncological emergencies and how to manage them.
- A General Practitioner's role during and after radiation therapy including side effect management.

Specialist presenters will include a Radiation Oncologist, Radiation Therapists, a Radiation Oncology Nurse and General Practitioner.
