

Greening the Healthcare Sector Forum - Save the Date

WHEN Tuesday, November 30th 2021
12:00 AM – 12:00 AM

WHERE Online

COST Free

This year's theme is 'Working towards a net zero emissions, climate resilient, equitable and environmentally sustainable healthcare sector: ensuring good health for all'

The Forum will feature current research and policy to support the transition to net zero carbon and environmentally sustainable healthcare, and showcase practical examples of environmentally sustainable healthcare in action. It will provide an opportunity for connection, knowledge sharing, learning, and upskilling.

This Forum is for anyone interested in improving the environmental footprint of healthcare (including aged care) and fostering a healthy future for people and the planet including: healthcare sustainability champions (operations, clinical, support, leadership); healthcare executive and management; health contractors, suppliers, manufacturers; government health and environment and sustainability leaders and representatives; academics and researchers; students; sustainability innovators and practitioners.
