An electronic prescription is a safe and secure digital alternative to a paper prescription. It is a safe, convenient, and secure option that you can choose for your medicines. Join this session to learn more about the benefits of electronic prescription tokens. Learn how you can access an electronic prescription token via SMS or email and how to get the script filled at the pharmacy. You will also briefly learn more about the Active Script List. There will also be an opportunity for questions and answers at the end of the session.
