Do you want to improve the quality and safety of care, drive your team and consumers engagement and achieve operational results?

As global leaders in the field, Huron Studer Group provides the tools needed for healthcare organisations to transform their culture and drive performance, whilst creating great places to work and great places to receive care. Our Evidence-Based LeadershipSM Framework enables leaders to respond and adapt to the rapid and continuous changes we are facing.

This practical, virtual workshop will take you through the proven approaches we use to:

create alignment within your team and organisation

increase the engagement of your people

build a culture of accountability and performance

deliver on your commitment to provide high quality and cost-effective care.

By combining theory with practical, interactive activities, this workshop is designed for people who want real tools, to work with real people, in

the real world.

This event attracts 8 CPD points.
