To remain competitive in the marketplace and provide exemplary service to clients, many organisations today are reassessing their training and operations to align with changing attitudes, policies and legislation regarding the LGBTQ communities.

Learners will first take an eLearning for introduction, then join a facilitated webinar on Zoom with a qualified ACON trainer, this webinar will help advance understanding of LGBTQ culture and unique health aspects with a focus on inclusive practices for aging care workers through discussion with like-minded people, compelling video content from the community, and engaging activities.
