

Little Lungs - A Paediatric Asthma Update

WHEN Tuesday, June 1st 2021
6:30 PM – 7:30 PM

WHERE Online

COST Free

This session focuses on managing asthma in the paediatric population. The Australian Asthma Handbook details the latest guidelines for paediatric asthma from 0-12 months, 1-5 years, 6-11 years old. It provides up to date, evidence-based asthma management information for treating these age groups in primary care.
