

# Living with COVID Webinar: Oral Antiviral Therapies

**WHEN** Tuesday, May 17th 2022  
6:30 PM – 7:30 PM

**WHERE** Online

**COST** Free

Please join us for a broad overview of the prescription, application and management of antivirals in treating patients with COVID. The session will also include an update on recent changes to COVID vaccination schedules and the rules affecting household contacts, and the availability and use of self-collected COVID and respiratory virus PCR.

The session will focus on the following topics among others for discussion:

- Describing the new notification process
- Indications for antivirals and prescribing processes
- Identifying patients with COVID who may benefit from oral antivirals
- Assessing interactions and making an appropriate prescribing decision
- Timing of COVID boosters after COVID infection
- The role of RATs vs PCR
