

Logic Modelling Workshop for Commissioned Services

WHEN Thursday, October 28th 2021
1:00 PM - 3:00 PM

WHERE Online

COST Free

Hunter New England and Central Coast PHN (The PHN) has adopted program logic as a foundational tool in its commissioning approach. To provide an understanding of the methodology, the PHN is hosting a 2-hour session specifically designed for Program teams and Managers working with our commissioned service providers.

This session will provide an introduction to logic modelling, including the theory of logic models - what they are and how to use them. It will provide an in-depth focus on the "how-to" of logic modelling to inform program outcomes.
