

Medications and Diabetes – what's new?

WHEN Thursday, August 31st 2023
6:00 PM – 7:00 PM

WHERE Online

COST Free

Join the Australian Diabetes Educators Association for a free webinar with Dr Gary Deed, Chair of the RACGP Specific Interests Diabetes network and Adjunct Senior Research Fellow at Monash University. Dr Deed will discuss the role of medications in managing type 2 diabetes.

He will explore the evidence for matching client phenotypes to choices of therapies in diabetes and how to develop an individualised management plan for differing patient presentations. He will also discuss how to safely manage risk associated with medication choices in diabetes.
