May is Neurofibromatosis awareness month. In support of this occasion, Alexion is delighted to invite you to Neurofibromatosis type 1 (NF1) Insights with the Experts – A virtual series on the latest developments in paediatric NF1 clinical practice. These 1-hour meetings aim to provide you with the latest evidence and best practices from both international and local speakers on topics that will have a direct impact on your clinical practice.

The topics that will be covered over the webinar series will include:

- Monday 6th May at 8.00pm – Understanding NF1: Diagnostic Path & Burden of Disease
- Thursday 16th May at 12.30pm – NF1: Monitoring, Management & Referrals in Australia
- Monday 27th May at 8.00pm – NF1 Plexiform Neurofibromas: Treatment Options
- Thursday 6th June at 7.00pm – Clinical Cases: Australian NF1 Plexiform Neurofibromas MDT Meeting
