Nurses across all specialties play a vital role in preventing skin cancer. Melanoma Institute Australia invites you to join their latest webinar on skin cancer prevention and risk reduction as part of their quarterly MIA Nurses Webinar Series. Presented by Dr Niamh-Anna O'Sullivan (Dermatologist), this engaging 1-hour webinar will bust the myths and controversies around sun protection, covering:

- The importance of prevention in skin cancer
- Advice on prevention strategies and other measures to reduce risk
- Practical ways to empower your patients and the community.

CPD: 1 CPD hour. A certificate of attendance will be provided on completion of the post-webinar survey.
