OTA's National Conference represents the pinnacle of Australian OT excellence. This is an opportunity for all people working in occupational therapy to come together—clinicians and managers, students and academics, metro and rural, young and young at heart. The National Conference isn't a few dates on the OT calendar every two years. The National Conference is our conference, and this is our time to shine. Our time to learn, discuss and deliberate. Our time to forge new connections and reignite old ones. Our time to share our insights and inspire our communities.
