

# Optimising cervical screening for people with disability – supporting equity in your practice

**WHEN** Tuesday, May 21st 2024  
7:00 PM – 8:00 PM

**WHERE** Online

**COST** Free

This interactive webinar will provide a disability-focused, case-based overview of the renewed National Cervical Screening Program (NCSP) including the choice of universal self-collection.

This session is presented by cervical screening experts Prof Deborah Bateson and Dr Lara Roeske, with key insights from Tricia Malowney, a disability advocate who has post-polio syndrome. It will explore cervical screening barriers and discuss strategies and techniques to support screening for patients with disability, including those with intellectual or cognitive disability.
