Palliative Care NSW Biennial State Conference 2022: Facing the Future Together. We now look ahead to consider: What is our vision for palliative care? How do we achieve that together? Sub-themes include: Facing The Future of therapeutics and innovations in palliative care Facing The Future of Climate change – can there be a sustainable future at end of life? Facing the Future of Communication – new technology and skills in palliative care Facing the future: Hope – the future of the palliative care workforce – are we ready? Facing the Future of Dying – VAD – what’s ahead for palliative care? Implications? Experiences of other states and territories
