

Plasma Problems & Platelet Perplexities: A GPs Guide

WHEN Thursday, June 13th 2024
7:30 PM - 9:00 PM

WHERE Online

COST Free

In this free webinar, join leading Icon Cancer Centre Clinical Haematologists, Dr Ross Tomlinson and Dr Jacqueline Taylor, as they discuss the latest on plasma cell and platelet disorders in General Practice.

Case-study based and GP led, this must-see education has been uniquely designed to address the limited availability of CPD education for GPs on non-malignant haematological conditions and aims to equip you with relevant and practical insights so you can identify, refer and manage conditions such as MGUS, thrombocytosis and thrombocytopenia with confidence.

This is the first webinar in a must-see three-part Haematology & Oncology for General Practice series developed by Icon Cancer Centre and trusted GP education provider, Praxhub.
