

# Pressure rising: clinical controversies and updates in hypertension

**WHEN** Wednesday, September 29th 2021  
8:00 PM – 9:00 PM

**WHERE** Online

**COST** Free

This World Heart Day, the Heart Foundation is partnering with the World Heart Federation and the High Blood Pressure Council of Australia to bring to you another health professional webinar. Along with Prof Garry Jennings, Chief Medical Advisor and Interim CEO of the Heart Foundation, our global expert panel will explore the latest clinical controversies in blood pressure management, including targets, resistant hypertension, and new digital technology for blood pressure monitoring.

General practitioner CPD accreditation will be applied for this educational activity.
