Following a recent announcement by the Federal Government, major changes to the funding of medications under the opioid treatment program (which include methadone and buprenorphine pharmacotherapies for the treatment of opioid use disorder) will commence on 1 July 2023.

In this special webinar Q&A session we will provide an update on this announcement and what it may mean for health professionals who provide opioid treatment pharmacotherapies in various settings within New South Wales. Leading the discussion will be Prof Paul Haber, Clinical Director of Drug Health Services SLHD & Head of the Specialty of Addiction Medicine at the University of Sydney.

Have a question? You can submit your questions for the webinar within your registration, or use the chat function within Zoom

during the session.

This webinar will be recorded and be made available on the OTAC website (www.otac.org.au/webinars) alongside other relevant resources related to the topic.
