

Quality Improvement in Chronic Kidney Disease in General Practice

This Mastermind session will assist General Practices in identifying procedures and practices to improve the management of their patients with Chronic Kidney Disease.

The presentation will focus on the following issues:

- Familiarity with Chronic Kidney Disease (CKD) Management in Primary Care Handbook, 4th edition, Kidney Health Australia (2020)
- Navigation of PenCS CAT4 Chronic Kidney Disease reports
- Application of continuous Chronic Kidney Disease Quality Improvement activities
