

# › Suturing Course

**WHEN** Saturday, May 27th 2023  
8:45 AM - 5:00 PM

**WHERE** Australia

**COST** \$585 includes online course and practical day

This course provides the theoretical and practical essentials to close and manage noncomplex traumatic lacerations, biopsies and surgical excisions. The course is ideally suited to nurses, medical students and doctors that have little or no suturing experience or wish to advance their current basic skill of only using single interrupted suturing technique. There is an online component and practical day. Once you have registered for the online component, you will receive a confirmation email to register for the practical day.
