Delivered in partnership with Southern Cross University, this live webinar will bring together a diverse range of experts to discuss how practitioners, policy makers and experts explore the challenges and opportunities to realise the full potential of Lifestyle Medicine in practice, beyond theory and education.

Specifically, discussion topics will include:

- \*Overcoming barriers to understanding the concept and place of Lifestyle Medicine
- \*Educating patients and practitioners to become champions of Lifestyle Medicine
- \*Exploring Lifestyle Medicine's contributions to medicine
- \*Challenges to overcoming these topical issues, such as funding
