Northern Australia Primary Health Limited (NAPHL) have recently developed a FREE Veteran Health Education Program for GPs, GP Registrars, Practice Managers (PMs) and Practice Nurses (PNs). This education is part of the Enhancing Primary Health Care for Veterans Project that aims to equip General Practice professionals across Australia with the knowledge, confidence and resources to deliver effective and appropriate health care for defence veterans.

Due to the success of these live online events, we have turned this into a short 2-hour self-paced online course - VETERAN HEALTH AND DVA LITERACY ONLINE COURSE, so we can assist General Practices further. Would your GPs, PMs and PNs be interested in participating? You can enrol (it's FREE) or view further details here

The course will close on 31 March 2021.
