

Post-traumatic stress disorder, complex trauma, and substance use: Promising new treatments for adolescents

WHEN Wednesday, April 14th 2021
12:00 PM – 1:00 PM

WHERE Online

COST \$50 –\$120

This research-based webinar will present, in an hour format, an overview of the current evidence regarding integrated treatment options available for co-occurring PTSD and substance use, plus promising new early interventions for adolescents.

As part of 3-part webinar series, this 'Learning Live' webinar incorporates lived experience and brings evidence and expert commentary together under one learning 'umbrella'.

Pricing options: \$50 per webinar or \$120 for the full bundle TheMHS Learning Live 'Drugs, Alcohol and Mental' Webinar Series.
