The Department of Veterans' Affairs (DVA) and the Australian Association of Practice Management (AAPM) invite you to join our one hour webinar launching DVA's new Quick Guides for General Practices.

These printable, easy to use, guides provide general practices key information they need when presented with a veteran or a member or their family.

Beyond showcasing the new guides, DVA's Deputy Chief Health Officer, Dr Trish Batchelor, and Senior Medical Officer, Dr Dan Corkery, will walk webinar participants through the basics of DVA health arrangements to help practices support quality care for veterans and their families, and receive the right payments for their business.
