

What's New in Chronic Kidney Disease: treatments and initiatives

WHEN Thursday, December 1st 2022
7:30 PM - 8:30 PM

WHERE Online

COST Free

Health Professionals are invited to join Kidney Health Australia with Clinical Director, Prof Karen Dwyer, as she reviews the latest research on SGLT2 inhibitors, and Long Covid and CKD, along with the recently released CARI Guidelines: Recommendations for Culturally Safe Kidney Care for First Nations Peoples. Our CEO, Chris Forbes, will reveal Kidney Health Australia's aspirational future direction and our Clinical Team will share details of the exciting new initiatives that will inspire and support you in the important work you do in the early detection and management of CKD.
