

Youth Mental Health and its impact on General Practice

WHEN Wednesday, November 24th 2021
6:00 PM - 7:30 PM

WHERE Online

COST Free

Youth Mental Health issues are becoming an increasingly common presentation in children and young people presenting to primary care providers and hospitals. It's even more challenging if the child has developmental delay, complex family dynamics and associated medical/genetic co morbidities. This event will examine Youth Mental Health and its impact on General Practice
